

# K. Alexandria Bond, PhD

## INTERESTS

representation learning | exploration & exploitation | *in silico* & human learning systems

## EDUCATION

### CARNEGIE MELLON UNIVERSITY | CARNEGIE MELLON NEUROSCIENCE INSTITUTE

PHD IN COGNITIVE NEUROSCIENCE WITH COMPUTATIONAL EMPHASIS

May 2022 | Pittsburgh, PA

Dissertation: [Adaptive Decision Policy Dynamics](#)

## EXPERIENCE

### CARNEGIE MELLON UNIVERSITY COGNITIVE AXON LAB | POSTDOCTORAL RESEARCHER

May 2022 – Present | Pittsburgh, PA

Developed cognitive and computational models of dynamic decision-making, simulated predicted behavioral and functional results, and validated out-of-set theoretical predictions with human fMRI and behavioral data. Designed and taught a [Cognitive Neuroscience Research Methods course](#) using educational research principles.

### CARNEGIE MELLON UNIVERSITY COGNITIVE AXON LAB | GRADUATE STUDENT RESEARCHER

July 2017 – May 2022 | Pittsburgh, PA

Wrote [dissertation](#) on how agents explore and decide when the environment changes. I approached this problem from a cognitive computational neuroscience perspective to ask how the human brain implements the underlying learning algorithms that drive adaptive behavior, combining computational modeling, computational neuroimaging, physiological measures (pupillometry, ECG, pulse oximetry, respiration), and behavioral methods.

### PRINCETON UNIVERSITY INTELLIGENT PERFORMANCE AND ADAPTATION LAB | LAB MANAGER

May 2014 – July 2017 | Princeton, NJ

Initiated and conducted motor control and learning research. Published 3 papers in the Journal of Neuroscience, Journal of Neurophysiology, and eNeuro.

## HONORS

- |      |         |   |
|------|---------|---|
| 2020 | 1 of 8  | Carnegie Mellon Graduate Student Representative Award                             |
| 2019 | 1 of 6  | Carnegie Mellon Neuroscience Institute Presidential Fellow                        |
| 2017 | 1 of 10 | National Institutes of Health (NIH) Behavioral Brain Research Training Fellowship |

## LEADERSHIP

### **CMU GRADUATE STUDENT ASSEMBLY EXECUTIVE BOARD 1 OF 8 | VICE PRESIDENT OF ACADEMIC AFFAIRS**

October 2021 – May 2022

Elected [GSA Executive Board](#) member. Collaborated with Vice Provost of Education and other University leadership to meet academic needs of GS. Selection of successful initiatives:

- Completely free health insurance for all GS, minimum stipend of 27k across departments, and reasonable leave policies. [Implemented in Fall 2022](#).
- Assessed need for empirically supported mentorship skills for both GS and advisors. Enabled informed, targeted development of University-level mentorship training and time-sensitive mental health checks by GS year.

### **CMU VICE PROVOST OF RESEARCH SEARCH COMMITTEE | INVITED ADVISOR**

### **UNIVERSITY STUDENT ADVISING COMMITTEE | INVITED ADVISOR**

### **UNIVERSITY EDUCATION COUNCIL | INVITED ADVISOR**

### **ASSOCIATE DEANS FOR GRADUATE PROGRAMS | INVITED ADVISOR**

### **THREE MINUTE THESIS (3MT) COMPETITION JUDGE 1 OF 1 | INVITED GRADUATE STUDENT THESIS JUDGE FOR CMU**

## SCIENTIFIC OUTREACH

- Carnegie Mellon University Psychology and Cognitive Neuroscience Outreach Program for underserved communities (2017 - present)
- Trenton STEM-to-Civics Charter School | Science Outreach Volunteer (2017)
- Hopewell Elementary School | Science Fair Judge (2017)

## ADVISING & TEACHING

- Advised Raghav Madan, Engineering & Tech. M.S. student (2019-2020) | now: PhD candidate at Washington University in Biomedical and Health Informatics
- Advised [Jadelyn Flores](#), New Brunswick High School student participating in the Princeton Laboratory Learning Program (2015) | now: graduate of Princeton University
- Designed data science tutorials (coauthored Jupyter [book](#); Spring 2019) | Teaching Assistant, Data Science for Psychology and Neuroscience
- Designed evaluation methods and managed a team of UG Teaching Assistants (Fall 2018) | Teaching Assistant, Cognitive Psychology

## DOMAIN EXPERTISE

Representation Learning | Reinforcement Learning | Decision-making | Motor control and learning | Learning timescales | Learning dynamics

## EXPERIMENTAL SKILLS

Experimental design & validation | Eyetracking & pupillometry | Multimodal physiological recording  
Generalization testing | Behavioral analysis | fMRI

## COMPUTATIONAL & ANALYTIC SKILLS

Applied machine learning | Artificial agent development | Computational Modeling | Computational Neuroimaging | Inferential statistics | Simulation | Time series analysis | Bayesian analysis and numerical estimation | Signal processing | Feature extraction | Dimensionality reduction | Python | R | SQL | High Performance Computing | Linux
